08/29/ 2007

Dear Mr Reches,

on the 14th and 15th of October 2007 IBM Germany hosts together with the user-group COMMON Germany the "iSociety World 2007" in Stuttgart.

Fact is: You shouldn't miss this event!

The trade fair shows a huge part of newest solutions and products out of hardware, software and services for medium- sized businesses. Furthermore there will also be an IT- Congress and a Manager Forum taking place. The principal theme of the Manager Forum will be the actual trends from the business management, while the IT-Congress is characterized by lectures, User reports and workshops.

We expect about 500 people to come and attend our IT- Congress. In addition to that every other prospect has the chance to visit the fair trade through the acquire of an admission ticket.

Seize the chance and present your business and solutions in a Forum within the trade fair. Moreover a stand at our trade fair offers the optimal stage to canvass new customers as well as networking with already existing ones.

We are looking forward to welcoming you in our nice Stuttgart.

Kind regards,

Ralf Dannemann
Director System i IMT Germany
