FOR IMMEDIATE RELEASE

Raz-Lee Security Ltd. and K.S.T. Software Ltd. announce marketing agreement for Master Conversion Tools Software and Methodology

HERZLIA, ISRAEL (February 26, 2007) Raz-Lee Security Ltd., a leading vendor of programmer optimization and security solutions for the IBM System i, and K.S.T. Software Ltd, a leader in the field of System i developing and consulting and experts in AS400 (System i) projects, software development and consultancy announce an agreement under which Raz-Lee will market K.S.T. Software, at system i sites.

“We are confident that K.S.T Software’s professional reputation in the area of developing software products for the System i as well as their vast experience in global conversion projects, will fulfill IT managers’ expectations and requirements for a comprehensive conversion solution. The Master Conversion for iSeries product will be a valuable addition to the suite of products marketed worldwide by Raz-Lee Security”, says Shmuel Zailer, Chief Executive Officer of Raz-Lee Security.

Mr. Rami Aviram, the CEO of K.S.T Software adds: “This agreement with Raz-lee under which Razlee will sell the K.S.T/Master Conversion for iSeries product that was approved during the EURO monetary migrations and carried under mandatory worldwide regulations, will add value to Raz-lee distributors by offering proven, required solutions for the System i market.

About Raz-Lee Security Ltd.

With its Research and Development offices located in Herzlia, Israel, Raz-Lee Security is the leading security solution provider for the IBM System i (AS/400). Drawing upon over 20 years of standard and mission-critical installation experience, Raz-Lee has leveraged vast expertise in the System i Performance and Optimization Market to design, develop and market comprehensive security solutions.

The broad scope of this experience gives Raz-Lee the insight required to develop, deploy and maintain products and solutions to assure end-to-end security for every System i configuration and application.
