FOR IMMEDIATE RELEASE

**Raz-Lee Security, Inc. and Software Engineering of America
Announce Partnership**

NANUET, NEW YORK, USA; FRANKLIN SQUARE, NEW YORK, USA (July 25, 2006) Raz-Lee Security, Inc., a leading vendor of security solutions for the IBM System i, and Software Engineering of America, a leader in the field of data center software solutions, announce the formation of a partnership between the two companies to market and support Raz-Lee's iSecurity software.

"Software Engineering of America's world-wide reputation of over 20 years in the area of data center solutions, and their unique position in the market are major contributors to our feelings that this partnership will be a long-lasting and favorable one for both companies and for our joint customers. We have always been impressed with SEA's marketing, sales and technical capabilities and are thrilled that SEA has chosen to partner with Raz-Lee Security to market our iSecurity product suite", says Shmuel Zailer, Chief Executive Officer of Raz-Lee Security.

Jay Thakker, Executive Vice President of Sales for Software Engineering of America adds: "We were very impressed with the depth and scope of Raz-Lee's solutions. Our technical experts evaluated numerous security solutions, and concluded that Raz-Lee's iSecurity products offered the greatest benefits to customers. SEA will provide IBM midrange Data Centers with intrusion detection and prevention as well as assist with compliancy obligations for companies across a wide variety of industries. We feel that this partnership between SEA and Raz-Lee will fill an immediate gap in the iSeries marketplace for security solutions. "

About Raz-Lee Security, Inc.

Headquartered in Nanuet, New York, Raz-Lee Security Inc. is the leading security solution provider for the IBM System i (AS/400). Drawing upon over 20 years of standard and mission-critical installation experience, Raz-Lee has leveraged vast expertise in the System i Performance and Optimization Market to design, develop and market comprehensive security solutions.

The broad scope of this experience gives Raz-Lee the insight required to develop, deploy and maintain products and solutions to assure end-to-end security for every System i configuration and application.
